# THE ROYAL INFIRMARY SHEFFIELD.

ONE HUNDRED & FORTY-SECOND

## ANNUAL REPORT

FOR THE YEAR ENDED  
31st DECEMBER, 1939.

## **Gifts of VEGETABLES, FRUIT, EGGS, etc.**

---

**G**IFTS OF VEGETABLES, FRUIT, EGGS, etc., are of real value to the Royal Infirmary, resulting as they do in the saving of many pounds annually.

Such gifts will be most gratefully accepted and may be sent to the Matron or to the General Superintendent and Secretary.

For the benefit of Donors who have no means of transport, gifts will be collected upon application being made to the General Superintendent and Secretary.

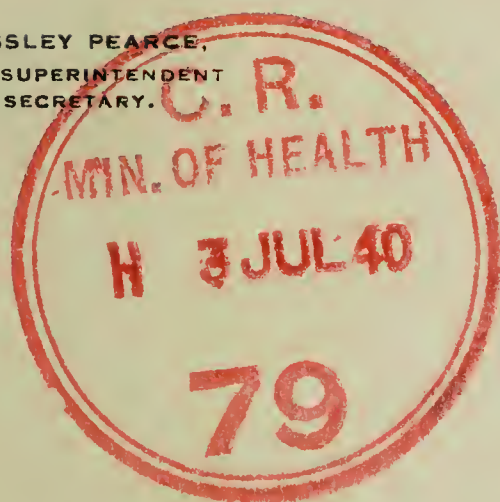

Telephone—Sheffield 20161.

## **The One Hundred and Forty-Second Annual Report,**

*for the Year ended 31st December, 1939.*

The Board of Management of the Royal Infirmary Unit of the Royal Sheffield Infirmary and Hospital have pleasure in presenting their One Hundred and Forty-Second Annual Report and Statement of Accounts for the year ended 31st December, 1939.

### OBITUARY.

It is with profound regret that reference is made to deaths which have occurred since the publication of the last Report.

In April, 1939, Professor J. W. Edington (Honorary Bacteriologist) and Mrs. Edington met untimely deaths as the result of a tragic motor accident in which they and others were involved. Professor Edington had carried out much advanced bacteriological work at the Royal Infirmary, the University, and at other Sheffield Hospitals, and was distinguished throughout the North of England.

In the month of October, Mr. H. Bedford, the Infirmary's Law Clerk, died suddenly; since his appointment in 1936, Mr. Bedford had rendered to the hospital invaluable service and guidance in legal affairs.

The Chairman of the Board (Sir Ronald Matthews) was bereaved by the death of his father, Mr. W. A. Matthews, a former member of the Board of Management, in October. Mr. Matthews had reached mature years, and although resident in London for some time prior to his death, he was closely associated with Sheffield affairs and maintained a keen interest in the work and well-being of the Royal Infirmary.

The death in February, 1940, of the Right Rev. Dr. L. Hedley Burrows, late Bishop of Sheffield, came as a great shock to all and caused widespread regret. Dr. Burrows, Sheffield's first Bishop, was held in universal esteem and admiration, and his genial spirit and kindly ways endeared him to all. He gave most valuable service as a member of the Board of Management of the Royal Infirmary from 1922 until the time of his retirement in 1939, and at all times showed an intense interest not only in the work of this Infirmary but in the work of the City's Voluntary Hospitals generally. The Board have placed on record their regret at the passing of Dr. Burrows and their appreciation of the value of his services during the long period he held office as a member of the Board.

## THE WORK OF THE YEAR.

Details are furnished in the paragraphs which follow of the number of patients treated in the Royal Infirmary wards and at the Firbeck Hall Auxiliary Hospital (to which reference is made later in this Report) as well as in the different Out-Patient Departments.

### IN-PATIENTS.

There has been quite a sharp decrease in the total of Infirmary In-patients, due principally to the reservation of a percentage of beds for air-raid casualties, which was effected under Ministry of Health instructions on the outbreak of war.

6,101 patients received treatment in the Infirmary in 1939, in comparison with 7,309 during 1938; of the total number treated 5,619 were cured or relieved, and 482 deaths occurred, 60 of which took place within forty-eight hours of admission.

The average number of beds occupied daily was 341, compared with 427 in the year previous.

From the date of opening (7th December, 1939) of the Firbeck Hall Auxiliary Hospital to the end of the year, 65 patients were admitted to the wards there.

### OUT-PATIENTS.

New patients (excluding Casualties) treated throughout the year in the different Out-Patient Departments amounted to 37,669, as against 40,486 in 1938; attendances reached a total of 185,152, in comparison with 228,113 in the previous year.

### ACCIDENTS AND EMERGENCIES.

20,343 patients received treatment in the Casualty Department of the Hospital, as compared with 20,307 in 1938; attendances amounted to 62,961, against 58,201 in the year previous.

### OPERATIONS.

During the year under review, 7,036 operations were carried out; 2,959 of these were performed in the General Surgical Theatres, 495 in the Ear, Nose and Throat Theatre, 394 in the Ophthalmic Theatre, and 3,188 in the Out-Patient Theatres.

At the Firbeck Hall Auxiliary Hospital, 57 operations were performed from the date of opening (7th December, 1939) to the end of the year.

### SPECIAL DEPARTMENTS.

The following figures relate to the work performed in the Special Departments of the Hospital during the year 1939, the figures for 1938 being given for purposes of comparison:—

OPHTHALMIC OUT-PATIENT DEPARTMENT.					1938		1939

## BOARD OF MANAGEMENT.

In April, 1939, Mr. H. F. B. Stephenson and Mr. A. J. Blanchard tendered their resignations to the Court of Management, and the Board desire to record in this Report their sincere appreciation of the very valuable services rendered by these gentlemen throughout the long period during which they held office as members of the Board of Management of the Royal Infirmary and of various Committees thereof. Mr. Stephenson took office

in 1921, and Mr. Blanchard in 1925, and throughout the years the Board have placed much reliance on the advice and guidance they have so willingly given on many matters which have undergone consideration.

#### HONORARY MEDICAL STAFF.

The Board wish to express at the end of another year of successful endeavour their grateful thanks to the members of the Honorary Medical Staff, whose skilful work has been characterised as in the past by an earnestness of purpose and a sympathetic understanding of the needs of those who have come under their care. In addition, the Honorary Medical Staff have frequently and willingly given the benefit of their advice and assistance to the Board in matters connected with the further development of the Hospital's work in one direction or another, and the Board desire to record their appreciation of this further service.

The Board welcome the following appointments which have been made by the Court of Management during the past year:—

Professor F. Davies, Honorary Anatomist ;

Dr. F. Ellis, Honorary Radio-Therapist ;

Mr. J. Hardman, Honorary Neurological Surgeon ;

Professor Wilson Smith, Honorary Bacteriologist ;

Dr. H. R. Vickers, Honorary Second Dermatologist.

Dr. R. S. Kennedy has been appointed Honorary Physician to the Mental Clinic at the Royal Infirmary.

Mr. W. J. Lytle has succeeded Mr. F. W. Holdsworth as Honorary Secretary to the Royal Infirmary Honorary Medical Staff, and thanks are tendered to Mr. Holdsworth for the work he carried out in this capacity.

#### IN MEMORY OF THE LATE MR. W. S. KERR, F.R.C.S.

In the past year the Board decided to erect a bronze Plaque in the Princess Mary Block (Ear, Nose and Throat Department) to commemorate for all time the distinguished services of the late Mr. William Smith Kerr, F.R.C.S., who founded the Department of Oto-Rhino-Laryngology at the Royal Infirmary and gave devoted service to it from 1904 to 1928. The Tablet was unveiled on 4th July, 1939, by Mr. Clement Kerr, son of the late Mr. W. S. Kerr, and dedicated by the Rev. G. Needham, Chaplain to the Royal Infirmary, in the presence of Mrs. W. S. Kerr, Mrs. Clement Kerr, members of the Board of Management and Honorary Medical Staff, and others.

#### NOTABLE VISITS TO THE INFIRMARY.

The Board are happy to record the visit paid to the Royal Infirmary by the Association of Surgeons on May 4th and 5th, 1939, as also the visit of the Otology and Laryngology Sections of the Royal Society of Medicine on 17th June, 1939.

## WAR EMERGENCY MEASURES.

Owing to the outbreak of War the Royal Infirmary has been compelled to take various steps to meet the emergency situation which has arisen. It is not possible, even if it were advisable, to go into fullest details of the different measures which have been adopted by the Hospital, and therefore it must suffice merely to give some indication of what has been done.

As regards Air Raid Precautions, the Board, acting upon the advice of a Special Committee appointed to go into this matter, instructed the purchase of various equipment, the training of Staffs and the execution of different works designed to ensure, as far as possible, the safety of patients and staff or to protect particularly vulnerable parts of the hospital buildings. In this connection the Institution received assistance from the City Authorities, principally in the provision of sand-bag protection, and this opportunity is taken of acknowledging the help received. In regard to medical arrangements, the Honorary Medical Staff have specially organised their resources with a view to enabling them to deal effectively with the heavy demands which may be made upon them.

On the actual outbreak of the War, the Royal Infirmary, as a Casualty Hospital and First Aid Post, was called upon to fulfil its obligations to the Government and to provide its quota of beds and other medical facilities for possible war casualties. This reservation of beds had, of course, the effect of curtailing the normal service of the hospital, but the Board and Honorary Medical Staff strove hard by re-organisation and by other means to maintain as far as possible those facilities which they realised had to be maintained to meet the needs of the ordinary civilian population especially in a city of such vital importance in time of war as Sheffield.

Such considerations led the Board, acting upon the guidance of the Court of Management, to explore the possibilities of obtaining accommodation outside the hospital but suitable for the purpose for which it was required, and the enquiries made resulted in the acquisition of Firbeck Hall, generously offered by Mr. C. A. Nicholson and the Committee of Firbeck Hall, as an auxiliary hospital. This famous Hall, situated in charming surroundings, was found readily adaptable for hospital purposes and has been in use since December, 1939. It provides accommodation for the treatment of seventy patients and to that extent supplements the bed complement at the Infirmary.

A similar offer of auxiliary accommodation was made by the Lindrick Golf Club, and accepted, and although plans in this connection have not yet fully matured, the necessary alterations to and equipment of the Club House will be carried out by an early date in 1940.

The War has undoubtedly placed upon the Infirmary, as upon all hospitals in vulnerable areas, a heavy strain and one which will increase to a marked extent if aerial warfare is practised. The Board are well aware that the Hospital which they administer is taking an important part in the national effort and organisation, and they see it as a duty, and are determined to do all that lies within their power, to provide a service to the population equal to the call which may be made upon it.

#### STAFF IN H.M. FORCES.

The following members of the Royal Infirmary's Staff are now serving with His Majesty's Forces :—

Mr. A. M. Connell	}	Honorary Medical Staff.
Mr. H. R. Vickers		
Mr. G. H. Rayner		
Mr. J. G. Connell		
Mr. I. B. Sneddon	}	Medical Staff.
Mr. W. D. Wallace		
Mr. E. P. Hall Drake		
Mr. C. D. P. Jones		
Mr. H. Aitken		
Mr. J. H. Wilding		
Mr. D. Bradbury		
Mr. B. R. Bray	}	Administrative Staff.
Miss M. Mackinnon		
Mr. W. Craig		
Mr. W. Morton		
Mr. C. Perrin		
Mr. L. Randell		
Mr. R. Richards		
Mr. H. Stowe		
Mr. H. B. Thrower		
Mr. W. Turner		
Mr. G. Warrilow		

#### FINANCE.

The past year's working reveals a deficit of £1,867. Income, though somewhat reduced under several headings, shows in total an increase from £93,911 in 1938 to £96,186 in 1939, due to grants received from the Government under the Emergency Hospital Scheme and shown in the Income and Expenditure Account under Heading II (b). Fluctuations are evident in the different items of Ordinary Expenditure and, as was expected, this shows a definite rise due principally to increased sums now being paid in wages and to enhanced commodity prices which have prevailed since the commencement of the war. The main increase in Expenditure, however, falls under the heading "Extraordinary" and is consequent upon the considerable sums which the Board have had to spend in connection with the equipment and maintenance of auxiliary hospital accommodation, particularly at Firbeck Hall, and on Air Raid Precautions at the Infirmary. Total Expenditure therefore has risen from £91,653 in 1938 to £98,053 in the past

year, creating an Excess of Total Expenditure over Total Income amounting to £1,867 as previously mentioned. The Income and Expenditure Account published in this Report provides detailed figures relative to the past year's working together with the comparable figures for 1938; it gives a good indication of the large outlays which are necessary for the maintenance of the Royal Infirmary. The Board naturally view the increased Expenditure and the resultant deficit with some concern, but at the same time, fully appreciating as they do their obligations to the civilian population as well as to the Government in these war-times, they feel there has been no alternative to the authorisation of those items of special expenditure which are mainly responsible for the unfavourable position at the end of the year. Looking to the future, the Board find themselves faced with even greater commitments than hitherto, but they are confident that those who have rallied so well to the support of the Hospital in the past, and for which support the Board are deeply grateful, will continue to do their utmost to meet the needs of the Hospital in the difficult times ahead. The valuable work of the Royal Infirmary is so well-known as to require little commendation—it should be the determination of all classes and interests in the community to see that they contribute to the limit of their ability to ensure that that great work is not in any way restricted by financial difficulties.

## EXTENSIONS AND RECONSTRUCTION WORK.

### X-RAY DEPARTMENT.

As foreshadowed in last year's Report, a scheme for the extension and part re-equipment of the X-Ray Department has been put in hand during the past year. The contract had to be executed without undue interference with the work of the Department, and is now well on the way towards completion. For long enough this Department has carried out its increasingly important work with facilities and accommodation too limited for its need and in recent years extension became a matter of urgency. The Board are satisfied, however, that when the work now in hand is finished the extended and re-equipped building will be up-to-date in every respect and capable of dealing efficiently with the demands made upon it.

### LAUNDRY.

Another important scheme undertaken during 1939 and similarly now nearing completion is the re-equipment of the Laundry. This Department was erected and equipped along with other Centenary Buildings in 1897 and, although under the present alterations scheme the building itself has undergone comparatively little change, considerable modernisation has been effected internally. The responsible Committee have been guided

by expert opinion throughout, and they and the Board are well satisfied that when the Laundry with its completely modernised equipment and facilities is recommissioned early in 1940 it will carry out its work with greatly increased efficiency and stricter economy, and, important also, will provide for the staff there conditions more congenial than have been possible hitherto.

#### NEW OPERATING THEATRES.

The new Operating Theatre Block to which reference was made in the Report for 1938, was completed early in 1939 and was formally opened on 1st May, 1939, by Sir Ronald Matthews, Chairman of the Royal Sheffield Infirmary and Hospital and of the Board of Management of the Royal Infirmary, in the presence of an assembly representative of all walks of the City's life. The new Theatre Block was dedicated by the Lord Bishop of Sheffield to all who are sick or suffering in the Sheffield Area and in particular to Professor John Sinclair White (Honorary Surgeon 1898-1920), Professor Arthur M. Connell (Honorary Surgeon since 1901), and Mr. Archibald Cuff (Honorary Surgeon 1903-1938), a Tablet to this effect being unveiled by Professor Ernest Finch, Senior Honorary Surgeon, following the Opening Ceremony. The provision of this new Theatre accommodation, of which the Board and Honorary Medical Staff are proud, supplies to the Infirmary a long-felt need, and it can be said with satisfaction that the facilities essential for the all-important operative work of the hospital have now been made available.

#### IMPROVEMENTS, RE-EQUIPMENT, ETC.

The three above-mentioned schemes represent the major works of Extension and Reconstruction which have proceeded during the past year but, in addition to these, expenditure has been authorised on other work throughout the hospital and its grounds, the object in each case being improvement in one form or another. As instances, Sliding Screens have been provided for Medical Ward Balconies, permitting the use of these Balconies even during inclement weather; the Tennis Courts used by the Nursing Staff and the Resident Medical Staff have been re-surfaced and reconditioned generally, providing greatly improved facilities for this form of Staff recreation; an up-to-date system for the return of Condensed Steam to the Boilers has been installed and has already proved the means of effecting considerable saving; an Incinerator has been brought into use with obvious beneficial results.

Furthermore, the medical, surgical and other equipment of the Hospital has been kept up to date in every respect.

The Board are at all times fully aware of the need for the exercise of the strictest economy in all directions of their administration, but equally they are convinced that it is of first importance that the Hospital must function with maximum efficiency.

## SHEFFIELD HOSPITALS COUNCIL.

For the year 1939 the Royal Infirmary received from the Sheffield Hospitals Council a total of £71,670, as compared with £73,251 for 1938, the latter sum, however, including £861 as a payment to cover the Infirmary's deficit for 1937. A great deal has been said and written in the past with regard to the success of the "1d. in the £" Scheme, but no praise is too extravagant for an organisation which year by year provides for the hospitals such a substantial part of their Income. The Board of the Royal Infirmary desire to tender to the Council and to the members of the Contributory Scheme their most grateful and cordial thanks for this splendid support upon which so much reliance is placed, and to express at the same time their sincere appreciation of the goodwill which lies behind the efforts of those concerned. The Board's gratitude is likewise expressed to the Executive Committee of the Contributors' Association, the members of the different Works, Ward and District Committees, and to the administrative staff of the Council, all of whom have combined to produce such a satisfactory position.

## CONVALESCENCE AND AFTER-CARE.

The Convalescent and After-Care Department continues to carry out year by year a work of great importance in the interests of the patients. The considerable Fund which made such work possible was established some years ago by two Benefactors who desired to remain anonymous, so keenly interested in the welfare of the Infirmary and its patients that they provided with great liberality the financial resources whereby Convalescence and After-Care could be made available to those in need of such benefits without any call being made upon the Hospital's general funds. Since the creation of the Fund many have shared and greatly appreciated these benefits, and reference to the Almoner's Report will provide much interesting information regarding the volume of work accomplished in 1939. The Board desire again to record their great indebtedness to the Donors who by the establishment of this Convalescent Fund made possible for the Board the provision of benefits which go such a long way to complete the recovery of those who have undergone treatment in the Hospital.

## HOSPITAL SUNDAY FUND.

The Board desire to express their gratitude to all who contributed to the collections made in the different Churches and Chapels of the City and surrounding districts on Hospital Sunday, 1939. The Royal Infirmary's share of the amount collected was £1,111 4s. od., compared with £1,229 15s. 3d. received in the year previous. Sincere thanks are likewise tendered to the Clergy and Ministers of all denominations as well as to the Hospital Sunday Committee and its Joint Honorary Secretaries (the

Rev. J. G. Speakman and the Rev. T. J. Whitman) for their continued efforts on behalf of the Hospitals and this Infirmary in particular.

It is perhaps unfortunate that the Hospital Sunday Collections are made at a time of the year when the weather so often militates against good attendances ; 1940 was no exception in this respect, but it is hoped that those who were prevented from going to worship will kindly send in the contribution they would ordinarily have made.

#### ALEXANDRA ROSE DAY.

The Royal Infirmary received the sum of £458 9s. 8d., representing the Hospital's share of the collections on Alexandra Rose Day, 1939. The amount received in the previous year was £466 8s. od. The Board desire to express their gratitude to the Rose Day Committee, the Nursing Staffs and to all who supported this splendid effort.

#### LADIES' WORKING ASSOCIATION.

It is with pleasure that the Board make reference to the continued good services of the Ladies' Working Association whose work during 1939, as in the past, has been characterised with much enthusiasm. When it is said that the members of the Association have provided for hospital use 2,286 articles to the value of £340 it will be appreciated how much this service means to the Royal Infirmary and its patients. The Board wish to express to the members of the Ladies' Working Association, on their own behalf and in name of the patients, their grateful thanks. The Association will gladly welcome the services of any new members who would like to take part in their work ; it is quite appreciated that the War has provided many opportunities for similar charitable work, but any who still can find some spare time are cordially invited to offer their services to the Honorary Secretary of the Ladies' Working Association (Miss Anderson), or to the Matron of the Royal Infirmary (Miss Bowling).

#### LEGACIES.

The Board wish to express their gratitude and thanks for Legacies received during the past year, a list of which is set out below :—

				£	s.	d.
Joseph Barton ...	...	...	...	3,750	0	0
J. R. Wharam ...	...	...	...	3,010	5	7

Wilfred John Taylor	...	...	10	0	0
Alfred Clarke	...	...	9	0	0

The total received in Legacies for 1939 amounted to £18,345 5s. 1d., as compared with £5,318 10s. 8d. in 1938, and the considerable increase is a matter of much satisfaction to the Board. Income from Legacies is an important source of income in that it is utilized to finance expenditure of a Capital nature. The Board therefore place a good deal of dependence upon the sums bequeathed to the Hospital by those who appreciate and give recognition to the wonderful work which is performed within its walls, and in acknowledging with grateful thanks the support received in the past year they wish to appeal earnestly to all charitably minded persons to recognise the Royal Infirmary's urgent needs when making any testamentary disposition of their Estates.

The benefactions conferring the privilege of the endowment of a Bed or Cot are as follow :—

	Bed.	Cot.
Perpetual Endowment	.... £1,000	.... £500
Annual Endowment	.... £50	.... £30

#### ENDOWMENT OF BEDS AND COT.

Information is given in the following paragraphs with regard to Bed and Cot Endowments in the past year, for which the Board are deeply grateful.

In January, 1939, Mrs. E. D. Barker, of Eastbourne, gave to the Board a Donation of £1,000 for the purpose of endowing a Bed at the Royal Infirmary in memory of her late husband, Dr. P. D. Barker, who was a House Surgeon at the hospital in 1900. In accordance with Mrs. Barker's wishes a Bed in Surgical Ward No. 7 has been endowed and a suitably-worded Tablet has been erected over the Bed. The Board take this further opportunity of expressing their gratitude to Mrs. Barker for her practical interest in the hospital with which her late husband was associated and for her generosity.

In March, 1939, the Board received from Mr. E. G. Flint, of Millhouses Lane, Sheffield, the sum of £500 for the endowment of a Cot at the Infirmary in memory of his son, Mr. G. P. Flint,

who died as the result of an accident in 1938. A Cot in Surgical (Children's) Ward No. 10 was selected, and at a Ceremony on 2nd May, 1939, a Tablet recording the endowment was unveiled by Miss C. Flint, after which the Cot was dedicated by the Lord Bishop of Sheffield. The Board's grateful thanks are tendered to Mr. Flint for his generous action.

In June, 1939, payment was received of the sum of £2,364 14s. from the Estate of the late Mrs. M. E. Cuthbert, of Bridlington, and £1,000 of this sum was set aside, in accordance with the provisions of the Will of Mrs. Cuthbert, for the Endowment of a Bed in perpetuity in memory of her late husband, Mr. Joseph Cuthbert, and herself. A Bed has been so endowed in Medical Ward 13-14, and a Bronze Tablet appropriately worded to record this generous bequest has been placed in position over it.

#### LORD NUFFIELD'S GIFT TO HOSPITALS.

The Board received with much gratification and satisfaction the intimation made during the past year of the creation by Lord Nuffield of the nucleus of a Central Hospital Fund for the Provinces. This further evidence of Lord Nuffield's munificence and his great interest in the development of the hospital system of the future will be appreciated universally.

#### CONCLUSION AND GENERAL THANKS.

On the completion of another year of successful endeavour, the Board desire to express cordial thanks to all those who by donations of money, gifts in kind or by personal service have assisted in the great work of the Hospital. The Board are constantly reminded of the affection in which the Royal Infirmary is held by the people of the City, and they receive frequent indications of the admirable spirit and "hospital-mindedness" of that large body of friends and well-wishers without whose generous help the Infirmary's work could not be continued. It is not possible to mention individually the many who play a part, but to each and all the Board's sincere gratitude is expressed. As this Report shows, the work of the Royal Infirmary continues to extend and develop, and it will be realised that the extra demands likely to be made upon the Hospital in these times of war will call for special effort towards the maintenance of that standard of efficiency achieved in the past and more than ever necessary now. Therefore, at the same time as they express their grateful thanks for the support received in the past year, the Board appeal for an even wider appreciation of the needs of the Royal Infirmary and a yet greater response thereto.

Special thanks are tendered to :—

The Trustees of the T.C. Convalescent Fund, the Church Burgesses Trust, the Town Trustees of Sheffield, the Bernhard Baron Charitable Trust, the South Yorkshire Miners' Welfare

Committee, and all other generous donors for their valuable financial help.

All annual Subscribers whose continued support is a genuine assurance of practical interest and goodwill.

The Sheffield Hospitals Council for the considerable income which it provides annually; the Ambulance Committee and the Convalescent Committee for their admirable services in the interests of the patients, and to the Council for the further help they give in collecting and distributing Eggs in Springtime and Toys and other gifts for the patients at Christmas.

The Sheffield and District Association of Hospital Contributors and its Executive Committee who do so much in the interests of the Hospitals and their patients.

The Clergy and Ministers of all denominations for their kindly ministrations to the patients and for their valuable assistance in connection with the Hospital Sunday Collection.

The Rotary Club of Sheffield for their sympathetic interest in the patients' welfare and in the Infirmary's work generally.

Those firms and organisations who by means of annual contribution maintain Beds and Cots in the Infirmary.

Messrs. J. G. Graves, Ltd., for their maintenance of the Wireless Installation at the Infirmary and for generous actions in other directions—the Board highly appreciate Mr. J. G. Graves' unfailing interest in the hospital; they wish to mention also the valuable advice and help given by Mr. G. W. Bagshaw (of Messrs. Graves' Hallamgate Wireless Factory) and members of his staff in connection with the Radio installation.

The Sheffield "Toc H" for the continuance of their good work as Librarians.

All who gave Eggs to the annual Collection by which the Infirmary benefited to the extent of 41,169 Eggs.

Messrs. Newton, Chambers & Co. Ltd., for their generosity in connection with the supply of "Izal" Disinfectant and road-repairing materials.

Messrs. Batchelor's Peas Ltd., for their kindness in supplying the Hospital, through the good offices of Mrs. C. T. Gasking, with different Canned Fruits and Vegetables free of charge.

Mr. and Mrs. J. C. Hambleton, of Scarborough, for their gift of various items of Operating Theatre Equipment.

Allotment Societies in the City and surrounding Areas, various Organisations in the Anston, Chapeltown, Grenoside, Harthill, Kiveton Park and other districts, and many other generous donors of Vegetables, Fruit, Eggs and other commodities, all of which are most welcome.

The Sheffield Co-ordinating Committee for Refugees, who kindly arranged the services of refugees to carry out A.R.P. work at the Infirmary; the refugees did this work voluntarily and the

Board greatly appreciate the diligent and thorough manner in which urgent tasks were performed.

The Boy Scouts' Organisation, members of which have attended daily since the commencement of the War and carried out many tasks throughout the Hospital with zeal and keenness ; an offer of similar help from the Boys' Brigade has been gratefully accepted.

The Proprietors and Editors of Sheffield and National newspapers for their willingness to bring to public notice the work of the Royal Infirmary and its needs.

The Council of Social Service, which again supplied the needs of Out-patients and their friends by undertaking the catering at the Refreshment Buffet in the grounds, and for valuable services in other directions.

Mr. Harry Cooper, Butcher, of Langsett Road, and his staff, for services rendered willingly at all times in connection with the motor transport of various gifts and other commodities.

The Carol Singers for the performances they gave on Christmas morning, and to many others who by generous thought and action assisted in making Christmas a happy Season for the patients.

The scholars of St. Philip's Church and the Tabernacle Sunday Schools, who by their singing on Whit-Monday morning did a great deal to brighten the patients, and to others who kindly arranged entertainments for the benefit of the patients in the Hospital.

The City of Sheffield Police for their courtesy and help in many ways.

The Sheffield Central Ambulance Service, for the efficient manner in which they carried out their duties despite special difficulties encountered.

The many good friends who diligently collect "silver-paper" to be sold for the benefit of the Hospital.

The organisers and those who take part, as well as those who patronise many special efforts made during the year with a view to increasing the funds.

In conclusion, the Board acknowledge with thanks the services of the lay, medical and nursing staffs, whose work throughout the Hospital calls for commendation.

By order of the Board of Management,

H. KINGSLEY PEARCE,

GENERAL SUPERINTENDENT AND  
SECRETARY.

## REPORT of the COURT OF MANAGEMENT FOR THE YEAR 1939.

---

The Court of Management has pleasure in presenting its first Annual Report.

The Act of Parliament dated 2nd June, 1938, uniting the Royal Infirmary and the Royal Hospital came into operation on the first of January, 1939. The management is entrusted to a Court of Management constituted as follows :—

- The President and Vice-Presidents ;
- Fourteen Governors of the Royal Infirmary ;
- Fourteen Governors of the Royal Hospital ;
- Five members of the Medical and Surgical Staff of the Royal Infirmary ;
- Five members of the Medical and Surgical Staff of the Royal Hospital ;
- Eight members of the Sheffield and District Association of Hospital Contributors ;
- The Treasurer ;
- The Dean of the Faculty of Medicine of the University ;
- One person appointed by the Sheffield Local Medical Panel Committee.

The first Meeting of the Court of Management was held on the third of January, 1939. Sir Ronald W. Matthews was elected Chairman, and Mr. Fred M. Osborn, Deputy-Chairman. The Court appointed a Board to manage the Royal Infirmary and another to manage the Royal Hospital. These two Boards, a Finance Committee and a Medical Committee, report to the Monthly Meeting of the Court.

The following appointments have been made by the Court :—

- Honorary Neurological Surgeon (new).
- „ Radio-Therapist (new).
- „ Second Dermatologist (new).
- „ Bacteriologist.
- „ Anatomist (new).

During the first year the resignations of four members were received :—Alderman A. J. Blanchard, Colonel H. F. B. Stephenson, the Lord Bishop of Sheffield (the Rt. Rev. Leonard H. Burrows), and Mr. J. T. Atter.

Acquisition of the site in Glossop Road for the proposed new Hospital is proceeding. Competitive plans for the building have been invited, and will be submitted during the middle of 1940.

The first portion to be erected will include the Dental Department of the University of Sheffield, part of which has hitherto been accommodated at the Royal Hospital. Negotiations with the Edgar Allen Institute to co-operate in making the combined institution more useful are proceeding. The plans of the new Hospital will include accommodation for the Institute. It is hoped that the work of the Radium Centre, which is now under the supervision of a Committee consisting of representatives of the four Voluntary Hospitals, the University, the City Corporation and others, will also be housed in part of the new Hospital to be erected.

On the outbreak of war in September, the Court received offers of additional accommodation for their patients and for possible air-raid casualties. Arrangements have been made for the Royal Infirmary to equip and manage (*a*) Firbeck Hall, thanks to the kindness of Mr. Cyril A. Nicholson and the Committee, and (*b*) Lindrick Golf Club House, as a Recovery Home, thanks to the kindness of the Captain, Sir Albert Bingham, and the Committee. The Royal Hospital will equip and manage (*a*) their Annexe and Zachary Merton Convalescent Home as an up-graded Hospital, and (*b*) will also use the George Woofindin Convalescent Home as a Recovery Home in case of an acute emergency arising.

In conclusion, the hope is expressed that support of the two unit hospitals will not only continue but increase in the sure belief that the amalgamation will bring greater progress and a definite measure of economy. The Court conveys its thanks to all who have assisted whether by contribution or personal service to the work of treating the sick of the City and district.

## MATRON'S REPORT.

---

Matron has pleasure in presenting her tenth Report regarding the Nursing Staff for the year ended 31st December, 1939.

During the year, 44 Probationers have entered the Training School—of whom 1 joined under the Affiliation Scheme with the Nottingham Women's Hospital. One International Student came for a six months' course in British methods of Nursing, arranged by the Royal College of Nursing, but left at the outbreak of War.

A Preliminary Training School was started in September. This means that all Probationers now enter the School for one month before coming into the Wards. They are given instruction in the care and cleaning of Hospital equipment and instruments. Simple routine nursing procedures are practised on models in the class-room, and they start their lectures on the Theory of Nursing, Anatomy, Physiology, Hygiene and Dietetics and Invalid Cookery. Because the course has been so much appreciated by the Probationers from the beginning, as many as possible of the year's candidates were worked in when the Hospital was not busy, so that of the 44 entries, 30 have been through the School.

Twenty-two Nurses gained their Hospital Certificate, and 6 the Affiliated Certificate on completion of their course of training. Of these 9 were promoted and are on the Staff as Trained Nurses; of the rest who left 10 are taking their midwifery training; 3 their fever training; 2 are private nursing; 1 is married; 1 is at home, and 2 have Hospital appointments elsewhere.

STATE EXAMINATIONS.—The Royal Infirmary has been a Centre for the State Examinations held in February and May, and the October Examination which was postponed to the end of November. During the year 27 of our Nurses entered for the Preliminary Examination and 22 passed—36 Nurses entered for the Final Examination and 30 Nurses passed. Since June, 1925, 449 Nurses have registered by Examination from this Training School.

FINAL HOSPITAL EXAMINATIONS.—Twenty-three Nurses entered; and in the Final Result (with marks for General Conduct, Ward Reports, etc., added) 7 Nurses gained 80% or over and qualified for the Gold Medal, 14 Nurses gained 70% or over, and 2 Nurses gained 60% or over.

Owing to the outbreak of War it was considered inadvisable to have our customary Prize Giving Ceremony. On December 11th, Sir Ronald Matthews presented the Medals and Sports trophies to the winners—the Gold Medal to Nurse M. Daybell, Silver Medal to Nurse E. Charlesworth, Bronze Medal to Nurse D. Clark. Examiners' Prizes were given to the following Nurses who attained Gold Medal standard: Nurses Beatson, Ownsworth, Goulden and

Gallagher. Matron's Prizes for Nursing Examinations (80% for the two examinations) were won by Nurses Daybell, Ownsworth, Goulden and Gallagher.

The Annual Reunion of Royal Infirmary Nurses was held on June 8th, when 115 past and present trained Nurses met for tea in the Recreation Room. Evening Service was sung in the Chapel at 5.15 p.m., and the Preacher was the Lord Bishop of Sheffield, who gave a farewell address to the League Members.

There has been some reorganization of the Territorial Army Nursing Service. We have been asked to send the names of any would-be recruits direct to the War Office, in order that they may be enrolled in the Q.A.I.M.N.S. (reserve). The required strength of the T.A.N.S. is now 150 (instead of 177), and we have a Reserve of 87.

During the early part of the year the Recreation Club was very active. The new hard Tennis Courts are much appreciated and have given opportunity for play right up to the winter. A team competed for the Inter-Hospital Cup, but was not successful, but our own Inter-year and Singles Championship Matches gave opportunity for good play. The summer picnics were again arranged and were enjoyed by all who took part in them.

Since the outbreak of War the activities, however, have been limited. Owing to the reservation of the Upperthorpe Baths as a Decontamination Centre the Swimming Gala could not be held, and the Friday evening Swimming Meeting had to be cancelled. Also it has been impossible to arrange Hockey, as the grounds are all too far away to enable the game to be played and for the Nurses to return to Hospital before dusk. For the first time for many years we could not entertain our Guests at a Christmas Concert.

The opening of Firbeck Hall as an Auxiliary Hospital has relieved the pressure on the limited number of beds in use here, and with the longer days and better weather the Staff should be very happy in these beautiful surroundings.

During the first three weeks of the War when the number of patients in the Hospital was reduced to 40, it was stimulating to see how the Sisters and Nurses tackled the unaccustomed tasks of providing emergency equipment and keeping their Wards constantly in readiness for possible air-raid casualties. Also a group of Nurses undertook the blacking-out of the Nurses' Homes, making the necessary curtains and shades for the lights.

Much credit is, I think, due to the Sisters and Nurses who all worked so steadily and loyally in most difficult circumstances.

W. BOWLING, *Matron*.

## THE MEDICAL REPORT, 1939.

*To the Board of Management of the Royal Infirmary, Sheffield.*

GENTLEMEN,

The Medical Staff have pleasure in submitting herewith the Medical Report for the year ended 31st December, 1939.

### IN-PATIENTS—

						1938	1939

The average total number of beds available at the Royal Infirmary was 476, and the average daily number of In-patients 341.

The average total number of beds available at the Firbeck Hall Auxiliary Hospital was 70, and the average number occupied daily since the date of opening (7th December, 1939) was 38.

On behalf of the Honorary Medical Staff.

W. J. LYTLE, *Honorary Secretary.*

## REPORT OF THE ALMONER'S DEPARTMENT, 1939.

In presenting the eleventh Annual Report of the Department, the Almoner has pleasure in being able to state that the work has continued satisfactorily. Apart from the month of September, when nearly all the Convalescent Homes were closed and the patients preferred to remain with their families, the war has made very little difference to the amount or type of work undertaken. Since October all the Homes, with the exception of those on the East Coast, have re-opened, and the greater number of patients have appreciated the opportunity offered them of completing their recovery in comparatively safe and restful surroundings.

In these times of stress when so many men and women are doing work of national importance and are impatient of each day they must stay away from it on account of illness, it is particularly beneficial for them to be able to enter Convalescent Homes directly they are fit to travel, where after three or four weeks they are usually able to return to their employment, probably more quickly than by recuperating at home.

Housewives, too, have been glad to take the opportunity of recovering completely in congenial surroundings, knowing that when once they are at home they will be unable to refrain from undertaking their usual domestic duties.

In almost every instance, the Medical Report on discharge from the Home has been most satisfactory, and it is very gratifying to hear the accounts given by the patients on their return of their improvement in health. It would be pleasant to be able to report all the messages of thanks and appreciation which are constantly received from them.

The following Homes have been used :—

Ashover	...	...	...	...	...	...	57
Bonchurch	...	...	...	...	...	...	1
Bournemouth	...	...	...	...	...	...	2
Brighton	...	...	...	...	...	...	2
Buxton	...	...	...	...	...	...	1
Cleethorpes	...	...	...	...	...	...	1
Grange	...	...	...	...	...	...	1
Hunstanton	...	...	...	...	...	...	88
Matlock	...	...	...	...	...	...	28
Rhyl	...	...	...	...	...	...	4
St. Leonards	...	...	...	...	...	...	1
Scarborough	...	...	...	...	...	...	94
Southport	...	...	...	...	...	...	106
Twycross	...	...	...	...	...	...	2
Woofindin	...	...	...	...	...	...	4
							<hr/> 392 <hr/>

The thanks of the Department are due again to the Matrons of the Convalescent Homes for their very kind consideration and for the care and attention which they have given to our patients throughout the year.

The Visitors fulfil an indispensable part in the work of the Department, and our thanks are due to them for their regular and untiring service. Their reports make it possible for the Almoner to know of many difficulties which the patients may find in following the treatment which has been prescribed for them by the Physician or Surgeon. It is usual for the visitor to call at the patient's home a few days after his discharge from the Ward, and she, having been previously informed of his condition and of the treatment recommended, is able to advise and make suggestions as to how that treatment may be carried out in view of the economic circumstances of the patient, and report to the Almoner when material assistance is required.

The supervision of long and chronic cases, such as those of Diabetes and Pernicious Anæmia, necessarily forms a prominent part of the work. Such patients tend to become disheartened and to tire of their treatment. This feeling seems to have been increased by the war, and they tend to rely even more than in previous years on the Infirmary for encouragement and re-assurance. At present over 140 Diabetic patients, and 58 with Pernicious Anæmia are attending the Out-Patient Department, and it has been found advisable for the Almoner to see these patients each time they come. Help is frequently needed in various ways to enable them to carry out the Physician's instructions accurately. A Diabetic diet may be costly, and it is often necessary to give advice as to how it may be obtained, and suggestions as to the most suitable substitutes for the rationed food.

The supply of Surgical Appliances has continued to play an important part in the work of the Department. This involves ordering the appliance at the Surgeon's request, and raising the funds from various sources, such as patients' payments, Approved Societies, Works Insurance Companies, Works Clubs and various Charitable Societies. During the year 430 appliances and 118 pairs of spectacles have been supplied at a cost of £898, and £815 has been raised towards this amount. Arrangements have been made for the supply of 15 artificial legs and 5 artificial arms at a total cost of £393, the whole of which sum has been raised from outside sources. In addition, a hand-propelled chair was provided for a man who had had a double amputation, and a hearing aid for a young woman who was completely deaf.

During the year, an enquiry was made to see if the 34 artificial legs supplied since the beginning of the year 1937 were in good working order. It is gratifying to note that with one exception the patients stated that the legs were entirely satisfactory, and that fourteen of them were able to follow their usual occupation.

The Department has continued its work in connection with the Radium Centre. Thirty-two patients have been assisted very generously by the National Society for Cancer Relief. On the recommendation of the Almoner, this Society is prepared to make

weekly grants to assist the patient in any way which seems most beneficial. £225 has been received, and has been spent on extra nourishment, fares, dressings, bedding and other comforts. In addition, blankets have been received, and a cash payment of 5/- for each patient who was receiving assistance at Christmas time.

It is important that a patient who has received Radium treatment should continue to attend at regular intervals for supervision, and many visits have been made to find out and remove, if possible, any difficulties in this connection. Assistance has been given to 40 cases in obtaining help with fares from the local Government Authorities for patients from out-lying areas, who are required to attend daily as Out-Patients.

During the year five students have been sent by the Institute of Hospital Almoners for training in this Department, such students coming for several months after completion of their University Course, to gain experience of work in a Provincial Hospital.

The Department has continued to supply clothing to necessitous patients recommended for Convalescent treatment, and friends have continued to send parcels regularly. One lady has kindly organised a sewing party which meets regularly to make children's clothing.

The Almoner would like to record thanks to all those who have co-operated in the work of the Department, and to the After-Care Visitors, whose names appear below:—

Mesdames Binney, Brownhill, Hayes, Hazell, Radford; the  
Misses Barnett, Corbett, Tickner and Wright.

Also

The Council of Social Service,  
The Croft House Settlement,  
The Queen Victoria District Nursing Association,  
The Rutland Hall Settlement,  
Toc H,

N.B.—There is an approximate amount of £5,662 outstanding at 31st December, 1939, on account of contracts for additions and improvements to Buildings which amount is not included in the above Balance Sheet.

N.B.—The Liabilities and Assets of this Unit (including the Subsidiary Funds) were taken over as from 1st January, 1939, by the Royal Sheffield Infirmary and Hospital. The Investments and Properties are now owned by that Corporation.

We have audited the above Balance Sheet, dated 31st December, 1939, and the accompanying Income and Expenditure Account with the Books and Vouchers relating thereto and certify the same to be in accordance therewith.

There has been charged in the Income & Expenditure Account a sum of £1,705 8s. 4d. in respect of Firbeck, and a sum of £240 11s. 1d. in respect of Lindrick, both items representing Capital Expenditure.

The Investments have been verified by us.
